Volume 1

Issue 29

Feel like you are being ignored?

We often hear from people that they feel that government and their elected officials are ignoring them. They do not feel that anyone is listening to them or concerned about their needs. We hear about the number of emails and phone calls that they have made trying to get attention. However, we all know that when it is time for citizens to speak with their most important civic voice, they fail to do it. **We do not vote!**

Democracy requires the participation of the people in naming their political representatives. It is empowerment for the people and taking action, become an active member of society. The power of voting is the power of change, it's the power of making a mark in history and voicing your opinions.

Your vote will never be ignored! Neighborhoods with high voter turnout won't be ignored either. There is a reason that political and election information is sent to "frequent voter addresses". The power is yours.

Not registered to vote? It is not too late to register and get your neighbors registered for the November election. Call NNI (816-454-2000), we will gladly lead you to the right place.
