

HOUSEHOLD HAZARDOUS WASTE PROGRAM

KC Water operates the Household Hazardous Waste program, accepting household chemicals from residents and hazardous materials from city facilities. Professionals at this facility safely manage, recycle, and properly discard dangerous household products. Proper handling of these materials offers a safe method to rid one's home and prevents waste from entering our rivers and streams. There is no charge for Kansas City, Missouri residents.

- Location: Environmental Campus, 4707 Deramus Avenue, Kansas City, MO 64120. Hours of Operation: Thursday and Friday, 9 AM to 6 PM, and Saturday, 9 AM to 4 PM.
